

## FERROX GTX LO Ws

### HEADING ATHLETICALLY AND DYNAMICALLY TO THE NEXT ADVENTURE.

**1** Footwear equipped with a GORE-TEX membrane is reliably waterproof, windproof and breathable.

**2** An outsole designed by LOWA with an optimised rubber compound to provide good grip.

**3** The double-layer midsole is directly injected onto the footwear. The layers include carefully coordinated degrees of rigidity to create the best-possible comfort.

**4** A special frame design known as LOWA MONOWRAP® provides stability.

DYNAPU®

**5** LOWA DynaPU® provides noticeable cushioning with every step.

**6** Lasts specially adapted to the anatomy of women's feet.

**7** The padded edging is softer and more flexible because of women's lower calf muscles.

Sporty and dynamic - outdoor athletes wearing the FERROX GTX LO Ws are perfectly equipped for their next adventure. Thanks to the DynaPU® midsole, the shoe is optimally cushioned, whilst the LOWA MONOWRAP® design provides optimal foot guidance. In everyday life, this stylish sports shoe also stands out and will be your ideal companion.

## WEIGHT

660 g/Pair (UK 8)

## SUITABLE FOR

### Nordic walking

Nordic walking is an endurance sport where participants' fast walking is supported by the use of two poles that follow the natural rhythm of the walkers' steps. The FERROX GTX LO Ws is just right for Nordic walking.

### Walks with the dog

Walking the dog is a joint activity in which dog owners and their pets head out into nature. The FERROX GTX LO Ws is just right for walks with the dog.

### Speed hiking

The FERROX GTX LO Ws is perfect for speed hikes. The activity involves a rapid trek across challenging terrain using poles and light equipment.

### Family excursions

The FERROX GTX LO Ws is ideal for a family excursion. This is a joint undertaking that a family does either indoors or outdoors in nature.

### Day hikes

The FERROX GTX LO Ws is perfect for day hikes. These outings last for less than 24 hours and lead back to the starting point.

### Strolls

The FERROX GTX LO Ws is the perfect companion for outdoor strolls.

## SOLE

### LOWA® MULTI TRAC®

The triangular profile design used in the sole LOWA® MULTI TRAC® is ideal for multifunctional outdoor uses on moderate terrain. The sole provides pleasant rolling properties, helping to prevent fatigue from setting in.

## MIDSOLE

**ca. 100 %**

### **Polyurethane (PU)**

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result. Through the use of PU, the soles become lightweight and functionally flexible.

## INSOLE

**ca. 5 %**

### **Fabric**

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

**ca. 50 %**

### **Memolatex**

Memo latex is composed of very soft latex foam. In addition to being lightweight, memo latex supports the natural rolling motion of the foot. It is primarily used in shoe insoles as a result. Memo latex also individually enwraps the foot and is particularly comfortable as a result.

**ca. 45 %**

### **Felt**

Felt is a textile fabric that is made of disordered fibrous material that is difficult to separate. The textile fabric is characterised by its high elasticity and its insulating qualities. As a result, it is used in particular as a component in insoles and as an insulating divider.

## FUNCTIONS

Avoidance of unnecessary stitches to reduce pressure points.

The footwear is flexible and supports natural rolling properties as a result.

## UPPER MATERIAL

**ca. 50 %**

### **Fabric**

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

**ca. 50 %**

### **Synthetic**

Our synthetic fabrics made of such plastics as nylon, polyester, polypropylene and elastane (Lycra) are primarily used as design elements and protection for the upper due to their abrasion resistance and tear strength.

## PPE REGULATION

Please note that if it is intended to use the purchased products as personal protective equipment in accordance with Art. 3 No. 1 of Regulation (EU) 2016/425 (PPE Regulation), the user is responsible for checking the products for the presence of a corresponding certification (see technical data of the product). If the product lacks a certification required for use as personal protective equipment as defined by the PPE Regulation, the product may not be used as personal protective equipment or only for non-professional purposes.
