

GORGON GTX Ws

COMFORTABLE FROM START TO FINISH.

Optimal support and a high degree of comfort are the defining qualities of the GORGON GTX Ws. With its high LOWA MONOWRAP® frame, the multifunctional footwear provides perfect foot guidance. As a result, it is the ideal partner for casual hikes and speed-hiking tours. With the help of an integrated GORE-TEX membrane, the high-quality synthetic and fabric upper provides the foot with a virtually impenetrable line of defence against wind and water.

1 Footwear equipped with a GORE-TEX membrane is reliably waterproof, windproof and breathable.

2 An outsole designed by LOWA with an optimised rubber compound to provide good grip.

3 The double-layer midsole is directly injected onto the footwear. The layers include carefully coordinated degrees of rigidity to create the best-possible comfort.

4 Lasts specially adapted to the anatomy of women's feet.

WEIGHT

680 g/Pair (UK 8)

SUITABLE FOR

Nordic walking

Nordic walking is an endurance sport where participants' fast walking is supported by the use of two poles that follow the natural rhythm of the walkers' steps. The GORGON GTX Ws is just right for Nordic walking.

Walks with the dog

Walking the dog is a joint activity in which dog owners and their pets head out into nature. The GORGON GTX Ws is just right for walks with the dog.

Speed hiking

The GORGON GTX Ws is perfect for speed hikes. The activity involves a rapid trek across challenging terrain using poles and light equipment.

Family excursions

The GORGON GTX Ws is ideal for a family excursion. This is a joint undertaking that a family does either indoors or outdoors in nature.

Strolls

The GORGON GTX Ws is the perfect companion for outdoor strolls.

Day hikes

The GORGON GTX Ws is perfect for day hikes. These outings last for less than 24 hours and lead back to the starting point.

SOLE

LOWA® SPEEDHIKING

The sole LOWA® SPEEDHIKING offers solid grip thanks to its large profile contact area. It also provides homogeneous, fatigue-retarding rolling properties on paved paths. Ideal for fast hikers and mountain runners.

MIDSOLE

ca. 100 %

Polyurethane (PU)

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result.

Through the use of PU, the soles become lightweight and functionally flexible.

INSOLE

ca. 45 % Memolatex

Memo latex is composed of very soft latex foam. In addition to being lightweight, memo latex supports the natural rolling motion of the foot. It is primarily used in shoe insoles as a result. Memo latex also individually enwraps the foot and is particularly comfortable as a result.

ca. 40 % Polyester

Polyester is synthetic plastic fibre made from crude oil. In chemical terms, it is a polymer that can be processed into many different materials. Thanks to its chemical flexibility, polyester is lightweight, dries quickly, does not shrink and has the highest levels of tear and abrasion resistance.

ca. 15 % Mesh

Mesh is a material that consists of many evenly spaced holes. It is usually made of polyester or nylon and basically a lattice-like material that is created by interwoven threads. Thanks to its special design, the man-made fibre is particularly permeable to air, has special moisture-regulating qualities and is easy to care for, breathable and crease-resistant.

FUNCTIONS

A special frame design known as LOWA MONOWRAP® provides an extra degree of stability.

The footwear is flexible and supports natural rolling properties as a result.

DYNA^{PU}®

LOWA DynaPU® provides noticeable cushioning with every step.

UPPER MATERIAL

ca. 50 % Synthetic

Our synthetic fabrics made of such plastics as nylon, polyester, polypropylene and elastane (Lycra) are primarily used as design elements and protection for the upper due to their abrasion resistance and tear strength.

ca. 50 % Fabric

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

PPE REGULATION

Please note that if it is intended to use the purchased products as personal protective equipment in accordance with Art. 3 No. 1 of Regulation (EU) 2016/425 (PPE Regulation), the user is responsible for checking the products for the presence of a corresponding certification (see technical data of the product). If the product lacks a certification required for use as personal protective equipment as defined by the PPE Regulation, the product may not be used as personal protective equipment or only for non-professional purposes.
