

INNOX PRO GTX MID JUNIOR

MAKE A COLOURFUL IMPRESSION ON EVERY TERRAIN.

1 Footwear equipped with a GORE-TEX membrane is reliably waterproof, windproof and breathable.

2 The LOWA PU outsoles set themselves apart with their reduced weight and very comfortable cushioning.

3 The double-layer midsole is directly injected onto the footwear. The layers include carefully coordinated degrees of rigidity to create the best-possible comfort.

4 A special frame design known as LOWA MONOWRAP® provides stability.

5 Lasts specially adapted to the anatomy of children's feet.

DYNAPU®

6 LOWA DynaPU® provides noticeable cushioning with every step.

When children's passion for adventure combines forces with waterproof multi-functional footwear, there can be just one result: a perfect child's shoe. Because children like to follow in the footsteps of their adult role models, an INNOX PRO GTX MID JUNIOR model was developed for small feet on the basis of the version for grown-ups. The shoe features a GORE-TEX lining that provides reliable moisture protection and a directly injected midsole made of LOWA DynaPU® that gives the shoe natural rolling properties and optimal cushioning.

SUITABLE FOR

School

School is the place where children and adolescents spend the day during the school week. School usually begins for children after they have turned 6. There are many types of schools. A number of subjects are taught in schools. The INNOX PRO GTX MID JUNIOR is just right for school life.

Family excursions

The INNOX PRO GTX MID JUNIOR is ideal for a family excursion. This is a joint undertaking that a family does either indoors or outdoors in nature.

Kindergarten

The INNOX PRO GTX MID JUNIOR is the perfect shoe for kindergarten. Kindergarten is the place where children spend the day during the school week. These children are generally between the ages of 3 and 6. Children participate in the widest range of activities in their supervised group – indoors as well as outdoors in nature.

Playing

The INNOX PRO GTX MID JUNIOR is the best playmate for the next adventure indoors or outdoors in nature.

Day hikes

The INNOX PRO GTX MID JUNIOR is perfect for day hikes. These outings last for less than 24 hours and lead back to the starting point.

SOLE

LOWA® MULTI TRAC® KIDS

The performance sole LOWA® MULTI TRAC® Kids was designed for multifunctional outdoor uses by small adventurers. The triangular stud delivers peak performance uphill and downhill on all sorts of surfaces. The flexible, abrasion-resistant outsole impresses with its pleasant rolling properties and durability – even when used extensively on asphalt.

MIDSOLE

ca. 100 %

Polyurethane (PU)

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result.

Through the use of PU, the soles become lightweight and functionally flexible.

INSOLE

ca. 70 %

Memolatex

Memo latex is composed of very soft latex foam. In addition to being lightweight, memo latex supports the natural rolling motion of the foot. It is primarily used in shoe insoles as a result. Memo latex also individually enwraps the foot and is particularly comfortable as a result.

ca. 30 %

Polyester

Polyester is synthetic plastic fibre made from crude oil. In chemical terms, it is a polymer that can be processed into many different materials. Thanks to its chemical flexibility, polyester is lightweight, dries quickly, does not shrink and has the highest levels of tear and abrasion resistance.

FUNCTIONS

The footwear has very soft rolling properties.

UPPER MATERIAL

ca. 50 %

Fabric

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

ca. 50 %

Synthetic

Our synthetic fabrics made of such plastics as nylon, polyester, polypropylene and elastane (Lycra) are primarily used as design elements and protection for the upper due to their abrasion resistance and tear strength.

PPE REGULATION

Please note that if it is intended to use the purchased products as personal protective equipment in accordance with Art. 3 No. 1 of Regulation (EU) 2016/425 (PPE Regulation), the user is responsible for checking the products for the presence of a corresponding certification (see technical data of the product). If the product lacks a certification required for use as personal protective equipment as defined by the PPE Regulation, the product may not be used as personal protective equipment or only for non-professional purposes.
