

MADDOX GTX LO LIKE CLOCKWORK.

With the airily light, waterproof MADDOX GTX LO multifunctional footwear, men will feel good everywhere - no matter whether during outdoor holidays or leisure time. Thanks to the practical Speed-Lace technology, the sports shoe can be individually adjusted quickly and easily, whilst the GORE-TEX membrane keeps feet dry at all times.

1 Footwear equipped with a GORE-TEX membrane is reliably waterproof, windproof and breathable.

2 An outsole designed by LOWA with an optimised rubber compound to provide good grip.

3 A special frame design known as LOWA MONOWRAP® provides stability.

4 The double-layer midsole is directly injected onto the footwear. The layers include carefully coordinated degrees of rigidity to create the best-possible comfort.

DYNA^{PU}®

5 LOWA DynaPU® provides noticeable cushioning with every step.

SUITABLE FOR

Nordic walking

Nordic walking is an endurance sport where participants' fast walking is supported by the use of two poles that follow the natural rhythm of the walkers' steps. The MADDUX GTX LO is just right for Nordic walking.

Walks with the dog

Walking the dog is a joint activity in which dog owners and their pets head out into nature. The MADDUX GTX LO is just right for walks with the dog.

Speed hiking

The MADDUX GTX LO is perfect for speed hikes. The activity involves a rapid trek across challenging terrain using poles and light equipment.

Family excursions

The MADDUX GTX LO is ideal for a family excursion. This is a joint undertaking that a family does either indoors or outdoors in nature.

Day hikes

The MADDUX GTX LO is perfect for day hikes. These outings last for less than 24 hours and lead back to the starting point.

Strolls

The MADDUX GTX LO is the perfect companion for outdoor strolls.

SOLE

LOWA® ENDURO EVO

The self-cleaning rubber sole LOWA® ENDURO EVO has been optimised for multifunctional uses and comes with a striking, sharp-edged profile design. This feature makes it perfect for a broad range of uses – during the daily routine, leisure time or easy hikes.

MIDSOLE

ca. 100 %

Polyurethane (PU)

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result. Through the use of PU, the soles become lightweight and functionally flexible.

INSOLE

ca. 5 %

Fabric

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

ca. 95 %

Polyurethane (PU)

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result. Through the use of PU, the soles become lightweight and functionally flexible.

FUNCTIONS

Avoidance of unnecessary stitches to reduce pressure points.

The footwear is flexible and supports natural rolling properties as a result.

UPPER MATERIAL

ca. 50 %

Fabric

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

ca. 50 %

Synthetic

Our synthetic fabrics made of such plastics as nylon, polyester, polypropylene and elastane (Lycra) are primarily used as design elements and protection for the upper due to their abrasion resistance and tear strength.

PPE REGULATION

Please note that if it is intended to use the purchased products as personal protective equipment in accordance with Art. 3 No. 1 of Regulation (EU) 2016/425 (PPE Regulation), the user is responsible for checking the products for the presence of a corresponding certification (see technical data of the product). If the product lacks a certification required for use as personal protective equipment as defined by the PPE Regulation, the product may not be used as personal protective equipment or only for non-professional purposes.
