

## CAREZZA GTX LO JR

### LOW-CUT MODEL FOR THE HIGHEST DEMANDS OF LITTLE FEET.

1 Footwear equipped with a GORE-TEX membrane is reliably waterproof, windproof and breathable.

2 The double-layer midsole is directly injected onto the footwear. The layers include carefully coordinated degrees of rigidity to create the best-possible comfort.

3 A special frame design known as LOWA MONOWRAP® provides stability.

4 The LOWA PU outsoles set themselves apart with their reduced weight and very comfortable cushioning.

DYNAPU®

5 LOWA DynaPU® provides noticeable cushioning with every step.

6 Lasts specially adapted to the anatomy of children's feet.

What happens when you combine the benefits of a lightweight multifunctional shoe with the stabilising properties of a robust hiking boot for children? In the best case, you get a dynamic low-cut model with a child-friendly last, a cushioning LOWA® DYNAPU® midsole, a supportive SUPPORT FRAME, a grippy rubber outsole and a practical speed-lacing system for quick on/off. In other words, the new CAREZZA GTX LO JR.

## SUITABLE FOR

### School

School is the place where children and adolescents spend the day during the school week. School usually begins for children after they have turned 6. There are many types of schools. A number of subjects are taught in schools. The CAREZZA GTX LO JR is just right for school life.

### Kindergarten

The CAREZZA GTX LO JR is the perfect shoe for kindergarten. Kindergarten is the place where children spend the day during the school week. These children are generally between the ages of 3 and 6. Children participate in the widest range of activities in their supervised group – indoors as well as outdoors in nature.

### Playing

The CAREZZA GTX LO JR is the best playmate for the next adventure indoors or outdoors in nature.

## SOLE

### LOWA® ENDURO EVO JUNIOR

The sharp profile design of the rubber sole LOWA® ENDURO EVO JUNIOR is self-cleaning and helps children to play and romp about all sorts of different terrains.

## MIDSOLE

### ca. 100 % Polyurethane (PU)

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result. Through the use of PU, the soles become lightweight and functionally flexible.

## INSOLE

**ca. 70 %**

### **Memolatex**

Memo latex is composed of very soft latex foam. In addition to being lightweight, memo latex supports the natural rolling motion of the foot. It is primarily used in shoe insoles as a result. Memo latex also individually enwraps the foot and is particularly comfortable as a result.

**ca. 30 %**

### **Polyester**

Polyester is synthetic plastic fibre made from crude oil. In chemical terms, it is a polymer that can be processed into many different materials. Thanks to its chemical flexibility, polyester is lightweight, dries quickly, does not shrink and has the highest levels of tear and abrasion resistance.

## FUNCTIONS

The footwear has very soft rolling properties.

## UPPER MATERIAL

**ca. 50 %**

### **Fabric**

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

**ca. 50 %**

### **Synthetic**

Our synthetic fabrics made of such plastics as nylon, polyester, polypropylene and elastane (Lycra) are primarily used as design elements and protection for the upper due to their abrasion resistance and tear strength.

## PPE REGULATION

Please note that if it is intended to use the purchased products as personal protective equipment in accordance with Art. 3 No. 1 of Regulation (EU) 2016/425 (PPE Regulation), the user is responsible for checking the products for the presence of a corresponding certification (see technical data of the product). If the product lacks a certification required for use as personal protective equipment as defined by the PPE Regulation, the product may not be used as personal protective equipment or only for non-professional purposes.
