

INNOX PRO GTX MID Ws

FLEXIBLE JACK-OF-ALL-TRADES.

1 Footwear equipped with a GORE-TEX membrane is reliably waterproof, windproof and breathable.

2 An outsole designed by LOWA with an optimised rubber compound to provide good grip.

3 A special frame design known as LOWA MONOWRAP® provides stability.

4 The double-layer midsole is directly injected onto the footwear. The layers include carefully coordinated degrees of rigidity to create the best-possible comfort.

5 Lasts specially adapted to the anatomy of women's feet.

6 The padded edging is softer and more flexible because of women's lower calf muscles.

DYNAPU®

7 LOWA DynaPU® provides noticeable cushioning with every step.

The colourful multitasking boot INNOX PRO GTX MID Ws is surprisingly flexible when a short stroll in nature turns into an unplanned hiking adventure. The INNOX PRO GTX MID Ws can effortlessly handle a short excursion on unknown terrain as well. Whilst the mid-sole made of LOWA DynaPU® offers the necessary cushioning, the innovative LOWA MONOWRAP® frame provides the very best foot guidance step by step across the terrain.

SUITABLE FOR

Speed hiking

The INNOX PRO GTX MID Ws is perfect for speed hikes. The activity involves a rapid trek across challenging terrain using poles and light equipment.

Strolls

The INNOX PRO GTX MID Ws is the perfect companion for outdoor strolls.

Walks with the dog

Walking the dog is a joint activity in which dog owners and their pets head out into nature. The INNOX PRO GTX MID Ws is just right for walks with the dog.

Family excursions

The INNOX PRO GTX MID Ws is ideal for a family excursion. This is a joint undertaking that a family does either indoors or outdoors in nature.

Day hikes

The INNOX PRO GTX MID Ws is perfect for day hikes. These outings last for less than 24 hours and lead back to the starting point.

Nordic walking

Nordic walking is an endurance sport where participants' fast walking is supported by the use of two poles that follow the natural rhythm of the walkers' steps. The INNOX PRO GTX MID Ws is just right for Nordic walking.

SOLE

LOWA® MULTI TRAC®

The triangular profile design used in the sole LOWA® MULTI TRAC® is ideal for multifunctional outdoor uses on moderate terrain. The sole provides pleasant rolling properties, helping to prevent fatigue from setting in.

MIDSOLE

ca. 100 %

Polyurethane (PU)

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result.

Through the use of PU, the soles become lightweight and functionally flexible.

INSOLE

ca. 45 %

Memolatex

Memo latex is composed of very soft latex foam. In addition to being lightweight, memo latex supports the natural rolling motion of the foot. It is primarily used in shoe insoles as a result. Memo latex also individually envelops the foot and is particularly comfortable as a result.

ca. 40 %

Polyester

Polyester is synthetic plastic fibre made from crude oil. In chemical terms, it is a polymer that can be processed into many different materials. Thanks to its chemical flexibility, polyester is lightweight, dries quickly, does not shrink and has the highest levels of tear and abrasion resistance.

ca. 15 %

Mesh

Mesh is a material that consists of many evenly spaced holes. It is usually made of polyester or nylon and basically a lattice-like material that is created by interwoven threads. Thanks to its special design, the man-made fibre is particularly permeable to air, has special moisture-regulating qualities and is easy to care for, breathable and crease-resistant.

FUNCTIONS

The footwear is flexible and supports natural rolling properties as a result.

UPPER MATERIAL

ca. 30 %

Fabric

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

ca. 70 %

Synthetic

Our synthetic fabrics made of such plastics as nylon, polyester, polypropylene and elastane (Lycra) are primarily used as design elements and protection for the upper due to their abrasion resistance and tear strength.

PPE REGULATION

Please note that if it is intended to use the purchased products as personal protective equipment in accordance with Art. 3 No. 1 of Regulation (EU) 2016/425 (PPE Regulation), the user is responsible for checking the products for the presence of a corresponding certification (see technical data of the product). If the product lacks a certification required for use as personal protective equipment as defined by the PPE Regulation, the product may not be used as personal protective equipment or only for non-professional purposes.
