

## CALLISTO GTX MID JUNIOR SPORTY MULTITALENT FOR AUTUMN AND WINTER.

When the weather turns ugly, children's small feet need a little extra bit of comfort. The new CALLISTO GTX MID JUNIOR does just that. Children outfitted in this shoe can count on all sorts of fun, delivered with the help of its sporty design, warm GORE-TEX Panda lining, cushioning sole and simple speed-lace system.

**1** Footwear equipped with a GORE-TEX membrane is reliably waterproof, windproof and breathable.

**2** The LOWA PU outsoles set themselves apart with their reduced weight and very comfortable cushioning.

**3** The double-layer midsole is directly injected onto the footwear. The layers include carefully coordinated degrees of rigidity to create the best-possible comfort.

DYNAPU®

**4** LOWA DynaPU® provides noticeable cushioning with every step.

**5** Lasts specially adapted to the anatomy of children's feet.

## SUITABLE FOR

### Winter walks

Winter walks are relaxed outdoor strolls in winter weather. The CALLISTO GTX MID JUNIOR is just right for such walks.

### School

School is the place where children and adolescents spend the day during the school week. School usually begins for children after they have turned 6. There are many types of schools. A number of subjects are taught in schools. The CALLISTO GTX MID JUNIOR is just right for school life.

### Kindergarten

The CALLISTO GTX MID JUNIOR is the perfect shoe for kindergarten. Kindergarten is the place where children spend the day during the school week. These children are generally between the ages of 3 and 6. Children participate in the widest range of activities in their supervised group – indoors as well as outdoors in nature.

### Playing

The CALLISTO GTX MID JUNIOR is the best playmate for the next adventure indoors or outdoors in nature.

## SOLE

### LOWA® URBAN TRAIL JUNIOR

The LOWA® URBAN TRAIL JUNIOR is guaranteed to provide the best comfort in the city or on light terrain thanks to a profile design that has been optimised for this very purpose. The profile channels are designed in such a way that they can optimally repulse moisture and dirt. The updated profile design provides harmonious rolling properties.

## MIDSOLE

### ca. 100 % Polyurethane (PU)

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result. Through the use of PU, the soles become lightweight and functionally flexible.

## INSOLE

### ca. 65 % Polyethylene

Polyethylene is a semi-crystalline and non-polar thermoplastic resin that is, by far, the most widely used plastic in the world. Polyethylene is used in part as a component of man-made fibre/blended fabrics. It is used primarily to create comfort and insulate the foot from below.

### ca. 35 % Non-woven fabric

Non-woven fabric is a collection of fibre of limited length, filaments or cut yarns. Used as a component/covering of feet beds, the layer of non-woven fabric absorbs the heat generated by the foot, creating a pleasant feeling of comfort even in cold weather.

## FUNCTIONS

A low, wrap-around frame on the midsole surrounds the foot.

The footwear has very soft rolling properties.

## UPPER MATERIAL

**ca. 70 %  
Fabric**  
Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

**ca. 30 %  
Synthetic**  
Our synthetic fabrics made of such plastics as nylon, polyester, polypropylene and elastane (Lycra) are primarily used as design elements and protection for the upper due to their abrasion resistance and tear strength.

## PPE REGULATION

Please note that if it is intended to use the purchased products as personal protective equipment in accordance with Art. 3 No. 1 of Regulation (EU) 2016/425 (PPE Regulation), the user is responsible for checking the products for the presence of a corresponding certification (see technical data of the product). If the product lacks a certification required for use as personal protective equipment as defined by the PPE Regulation, the product may not be used as personal protective equipment or only for non-professional purposes.
