

LOCARNO GTX LO Ws

MULTIFUNCTIONAL, NO IFS ANDS OR BUTS ABOUT IT.

1 Footwear equipped with a GORE-TEX membrane is reliably waterproof, windproof and breathable.

2 An outsole designed by LOWA with an optimised rubber compound to provide good grip.

3 The double-layer midsole is directly injected onto the footwear. The layers include carefully coordinated degrees of rigidity to create the best-possible comfort.

4 A special frame design known as LOWA MONOWRAP® provides stability.

5 Lasts specially adapted to the anatomy of women's feet.

DYNAPU®

6 LOWA DynaPU® provides noticeable cushioning with every step.

Spontaneous outings from here on out will not be the exception but rather the rule! This is ensured by the casual look and performance details of the LOCARNO GTX LO Ws, which supports women perfectly in their active lifestyle. The stylish leather embossing, a reduced LOWA-MONOWRAP® construction and the cushioning midsole made of LOWA DynaPU® ensure a casual look, but also provide optimum support for spontaneous outdoor use.

COLOURS

Navy/mandarin
320817 6912

Redwood/rose
320817 3045

WEIGHT

700 g/Pair (UK 8)

SUITABLE FOR

Nordic walking

Nordic walking is an endurance sport where participants' fast walking is supported by the use of two poles that follow the natural rhythm of the walkers' steps. The LOCARNO GTX LO Ws is just right for Nordic walking.

Strolls

The LOCARNO GTX LO Ws is the perfect companion for outdoor strolls.

City tours

The LOCARNO GTX LO Ws is perfect for activities in the city.

Day hikes

The LOCARNO GTX LO Ws is perfect for day hikes. These outings last for less than 24 hours and lead back to the starting point.

SOLE

LOWA® HYBRID TRAC®

The self-cleaning sole LOWA® HYBRID TRAC® is perfect for everyday use when the weather turns windy and nasty. With the help of its profile design and special tip and heel construction, it demonstrates its true strengths during ascents and descents.

MIDSOLE

ca. 100 % Polyurethane (PU)

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result. Through the use of PU, the soles become lightweight and functionally flexible.

INSOLE

**ca. 40 %
Polyethylene**

Polyethylene is a semi-crystalline and non-polar thermoplastic resin that is, by far, the most widely used plastic in the world. Polyethylene is used in part as a component of man-made fibre/blended fabrics. It is used primarily to create comfort and insulate the foot from below.

**ca. 45 %
Felt**

Felt is a textile fabric that is made of disordered fibrous material that is difficult to separate. The textile fabric is characterised by its high elasticity and its insulating qualities. As a result, it is used in particular as a component in insoles and as an insulating divider.

**ca. 15 %
Fabric**

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

FUNCTIONS

The footwear is flexible and supports natural rolling properties as a result.

UPPER MATERIAL

**ca. 80 %
Nubuck leather**

Nubuck leather is a full-grain leather that is slightly sanded, a process that lends a velvety look to the leather. Nubuck leather is especially durable, robust and open-pored. Depending on the desired look, the suede can be left untreated during the manufacturing process or oiled or waxed.

**ca. 20 %
Fabric**

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

PPE REGULATION

Please note that if it is intended to use the purchased products as personal protective equipment in accordance with Art. 3 No. 1 of Regulation (EU) 2016/425 (PPE Regulation), the user is responsible for checking the products for the presence of a corresponding certification (see technical data of the product). If the product lacks a certification required for use as personal protective equipment as defined by the PPE Regulation, the product may not be used as personal protective equipment or only for non-professional purposes.
