

MALTA GTX MID Ws

PACKED WITH THE DNA OF AN OUTDOOR SHOE.

The MALTA GTX MID Ws is the perfect multitalent in every way. The casual leisure-time model is always the right choice for your everyday activities not simply because of its stylish sneaker look. Thanks to the footwear's functional features, you can easily put the boots to the test outside the city limits as well.

1 Footwear equipped with a GORE-TEX membrane is reliably waterproof, windproof and breathable.

2 An outsole designed by LOWA with an optimised rubber compound to provide good grip.

3 The double-layer midsole is directly injected onto the footwear. The layers include carefully coordinated degrees of rigidity to create the best-possible comfort.

DYNA^{PU}®

4 LOWA DynaPU® provides noticeable cushioning with every step.

5 Lasts specially adapted to the anatomy of women's feet.

SUITABLE FOR

Strolls

The MALTA GTX MID Ws is the perfect companion for outdoor strolls.

Walks with the dog

Walking the dog is a joint activity in which dog owners and their pets head out into nature. The MALTA GTX MID Ws is just right for walks with the dog.

Family excursions

The MALTA GTX MID Ws is ideal for a family excursion. This is a joint undertaking that a family does either indoors or outdoors in nature.

City tours

The MALTA GTX MID Ws is perfect for activities in the city.

SOLE

LOWA® CAMARA Ws

The rubber sole LOWA® CAMARA Ws comes with a large profile design that offers a bigger contact surface. This feature delivers solid grip on easy terrain or during urban outings.

MIDSOLE

ca. 100 %

Polyurethane (PU)

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result. Through the use of PU, the soles become lightweight and functionally flexible.

INSOLE

ca. 90 %

Polyurethane (PU)

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result. Through the use of PU, the soles become lightweight and functionally flexible.

ca. 10 %

Fabric

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

FUNCTIONS

A low, wrap-around frame on the midsole surrounds the foot.

The footwear is flexible and supports natural rolling properties as a result.

UPPER MATERIAL

ca. 80 % Suede leather

Suede leather comes from the flesh side of the hide. It has a looser fibre structure, a quality that creates a velvety surface and a light pile. Suede leather is particularly durable and open-pored. Depending on the desired look, suede leather can remain untreated or be oiled or waxed.

ca. 20 % Fabric

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

PPE REGULATION

Please note that if it is intended to use the purchased products as personal protective equipment in accordance with Art. 3 No. 1 of Regulation (EU) 2016/425 (PPE Regulation), the user is responsible for checking the products for the presence of a corresponding certification (see technical data of the product). If the product lacks a certification required for use as personal protective equipment as defined by the PPE Regulation, the product may not be used as personal protective equipment or only for non-professional purposes.
