

## TORO PRO GTX LO Ws

### A MULTIFUNCTIONAL SHOE WITH ATHLETIC DNA.

**1** Footwear equipped with a GORE-TEX membrane is reliably waterproof, windproof and breathable.

**2** An outsole designed by LOWA with an optimised rubber compound to provide good grip.

**3** The double-layer midsole is directly injected onto the footwear. The layers include carefully coordinated degrees of rigidity to create the best-possible comfort.

**4** A special frame design known as LOWA MONOWRAP® provides stability.

DYNAPU®

**5** LOWA DynaPU® provides noticeable cushioning with every step.

**6** Lasts specially adapted to the anatomy of women's feet.

**7** The padded edging is softer and more flexible because of women's lower calf muscles.

The new multifunctional TORO PRO GTX LO Ws stands out with its exceptional fit and athletic DNA - from its robust mix of materials to its grippy outsole. The shoe comes with a modern derby cut and delights wearers thanks in part to its breathable and waterproof lining made by GORE-TEX. The patented LOWA MONOWRAP® frame also improves foot guidance, and the directly injected midsole made of LOWA DynaPU® provides optimal cushioning every step of the way.

## COLOURS

Graphite/arctic  
320931 9727

## WEIGHT

720 g/Pair (UK 8)

## SUITABLE FOR

### Nordic walking

Nordic walking is an endurance sport where participants' fast walking is supported by the use of two poles that follow the natural rhythm of the walkers' steps. The TORO PRO GTX LO Ws is just right for Nordic walking.

### Strolls

The TORO PRO GTX LO Ws is the perfect companion for outdoor strolls.

## SOLE

### LOWA® MULTI TRAC® II

The triangular profile design used in the sole LOWA® MULTI TRAC® II is ideal for multifunctional outdoor uses on moderate terrain. The sole provides pleasant rolling properties, helping to prevent fatigue from setting in.

## MIDSOLE

### ca. 100 %

### Polyurethane (PU)

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result.

Through the use of PU, the soles become lightweight and functionally flexible.

## INSOLE

### ca. 50 % Memolatex

Memo latex is composed of very soft latex foam. In addition to being lightweight, memo latex supports the natural rolling motion of the foot. It is primarily used in shoe insoles as a result. Memo latex also individually enwraps the foot and is particularly comfortable as a result.

### ca. 45 % Felt

Felt is a textile fabric that is made of disordered fibrous material that is difficult to separate. The textile fabric is characterised by its high elasticity and its insulating qualities. As a result, it is used in particular as a component in insoles and as an insulating divider.

### ca. 5 % Fabric

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

## FUNCTIONS

The footwear is flexible and supports natural rolling properties as a result.

## UPPER MATERIAL

### ca. 80 % Nubuck leather

Nubuck leather is a full-grain leather that is slightly sanded, a process that lends a velvety look to the leather. Nubuck leather is especially durable, robust and open-pored. Depending on the desired look, the suede can be left untreated during the manufacturing process or oiled or waxed.

### ca. 20 % Suede leather

Suede leather comes from the flesh side of the hide. It has a looser fibre structure, a quality that creates a velvety surface and a light pile. Suede leather is particularly durable and open-pored. Depending on the desired look, suede leather can remain untreated or be oiled or waxed.

## PPE REGULATION

Please note that if it is intended to use the purchased products as personal protective equipment in accordance with Art. 3 No. 1 of Regulation (EU) 2016/425 (PPE Regulation), the user is responsible for checking the products for the presence of a corresponding certification (see technical data of the product). If the product lacks a certification required for use as personal protective equipment as defined by the PPE Regulation, the product may not be used as personal protective equipment or only for non-professional purposes.
