

## RENEGADE EVO GTX MID Ws OUTPACES THE COMPETITION.

**1** Footwear equipped with a GORE-TEX membrane is reliably waterproof, windproof and breathable.

**2** Proven Vibram rubber sole from a high-quality provider from Italy.

**3** The forefoot and upper area can be laced in varying degrees of tightness.

**4** The double-layer midsole is directly injected onto the footwear. The layers include carefully coordinated degrees of rigidity to create the best-possible comfort.

**5** A special frame design known as LOWA MONOWRAP® provides stability.

**6** Lasts specially adapted to the anatomy of women's feet.

Not every hiking boot has what it takes to become a true classic. Unless it is one of the most popular models made by LOWA - the RENEGADE. To turn a good boot into an even better one, LOWA has revamped the RENEGADE EVO GTX MID Ws by adding a few small but significant details that not only enhance function but also appearance. Better than ever before, the comfortable multifunctional footwear takes every facet of the perfect fit into consideration, providing the space that toes need and creating a stylish appearance - without scrimping on any aspect of functionality.

321916 9675

Black/blue  
321916 9940

## WEIGHT

930 g/Pair (UK 8)

## SUITABLE FOR

### Pilgrim hiking

A pilgrim hike is a long-distance journey by foot that is motivated by spiritual needs. The RENEGADE EVO GTX MID Ws is a good travel companion on such tours.

### Day hikes

The RENEGADE EVO GTX MID Ws is perfect for day hikes. These outings last for less than 24 hours and lead back to the starting point.

### Walks with the dog

Walking the dog is a joint activity in which dog owners and their pets head out into nature. The RENEGADE EVO GTX MID Ws is just right for walks with the dog.

## SOLE

### VIBRAM RENE TRAC® Ws

The self-cleaning VIBRAM RENE TRAC® with a multidirectional profile alignment provides optimal grip on a wide variety of terrains. Combined with a distinctive heel edge, the sole allows pleasant rolling behavior for comfortable ascents and descents.

## MIDSOLE

**ca. 100 %**

### **Polyurethane (PU)**

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result. Through the use of PU, the soles become lightweight and functionally flexible.

## INSOLE

**ca. 70 %**

### **Memolatex**

Memo latex is composed of very soft latex foam. In addition to being lightweight, memo latex supports the natural rolling motion of the foot. It is primarily used in shoe insoles as a result. Memo latex also individually enwraps the foot and is particularly comfortable as a result.

**ca. 30 %**

### **Polyester**

Polyester is synthetic plastic fibre made from crude oil. In chemical terms, it is a polymer that can be processed into many different materials. Thanks to its chemical flexibility, polyester is lightweight, dries quickly, does not shrink and has the highest levels of tear and abrasion resistance.

## FUNCTIONS

The shoe is moderately stiff.

## UPPER MATERIAL

**ca. 100 %**

### **Nubuck leather**

Nubuck leather is a full-grain leather that is slightly sanded, a process that lends a velvety look to the leather. Nubuck leather is especially durable, robust and open-pored. Depending on the desired look, the suede can be left untreated during the manufacturing process or oiled or waxed.

## PPE REGULATION

Please note that if it is intended to use the purchased products as personal protective equipment in accordance with Art. 3 No. 1 of Regulation (EU) 2016/425 (PPE Regulation), the user is responsible for checking the products for the presence of a corresponding certification (see technical data of the product). If the product lacks a certification required for use as personal protective equipment as defined by the PPE Regulation, the product may not be used as personal protective equipment or only for non-professional purposes.
