

TREK EVO GTX MID Ws

A COMPLETELY GRATIFYING TOTAL PACKAGE.

If you ever want to turn a journey consisting of many individual stages into a completed adventure, you will need the perfect set of uncompromising gear. Your primary partner here is comfortable and, above all, lightweight footwear such as the new TREK EVO GTX MID Ws. This athletic trekking boot with Vibram outsole effortlessly extends the limits of what is possible and excels even on demanding terrain with the help of a wide range of functional details - like a lightweight, but robust fabric upper, a waterproof GORE-TEX lining, a midsole made of LOWA DynaPU®, an innovative dual-zone lacing system and toe and heel protection made of tough PU film.

1 Footwear equipped with a GORE-TEX membrane is reliably waterproof, windproof and breathable.

2 Proven Vibram rubber sole from a high-quality provider from Italy.

3 The forefoot and upper area can be laced in varying degrees of tightness.

4 Holds the tongue in place with the help of the laces and prevents slippage in the process.

5 Lasts specially adapted to the anatomy of women's feet.

SUITABLE FOR

Mountain hiking

The TREK EVO GTX MID Ws is ideal for mountain hiking. This involves a tour in mountainous terrain.

Multi-day hikes

A multi-day hike involves a tour with a backpack that lasts for more than 24 hours. The TREK EVO GTX MID Ws is the perfect footwear for such hikes.

Day hikes

The TREK EVO GTX MID Ws is perfect for day hikes. These outings last for less than 24 hours and lead back to the starting point.

Approaches

The approach boot TREK EVO GTX MID Ws is perfect for the hike to the starting point of the actual via ferrata or climbing tour.

Pilgrim hiking

A pilgrim hike is a long-distance journey by foot that is motivated by spiritual needs. The TREK EVO GTX MID Ws is a good travel companion on such tours.

Long-distance hiking

The TREK EVO GTX MID Ws is perfect for long-distance hiking. It involves covering a great distance on foot over a period of several days.

SOLE

VIBRAM ROCK TRAC® SENSE

The VIBRAM ROCK TRAC® SENSE shows off its strengths on versatile terrain: Good grip, the Vibram XS Trek rubber compound and the special triangular profile design provide optimal comfort.

MIDSOLE

ca. 100 % Polyurethane (PU)

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result.

Through the use of PU, the soles become lightweight and functionally flexible.

INSOLE

ca. 90 % Polyurethane (PU)

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result. Through the use of PU, the soles become lightweight and functionally flexible.

ca. 10 % Mesh

Mesh is a material that consists of many evenly spaced holes. It is usually made of polyester or nylon and basically a lattice-like material that is created by interwoven threads. Thanks to its special design, the man-made fibre is particularly permeable to air, has special moisture-regulating qualities and is easy to care for, breathable and crease-resistant.

FUNCTIONS

DYNA**PU**®

LOWA DynaPU®+ has a very high level of recovery behaviour. The highly elastic features maintain their properties for a very long period of time.

The footwear is flexible and supports natural rolling properties as a result.

UPPER MATERIAL

ca. 80 % Fabric

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

ca. 20 % Synthetic

Our synthetic fabrics made of such plastics as nylon, polyester, polypropylene and elastane (Lycra) are primarily used as design elements and protection for the upper due to their abrasion resistance and tear strength.

PPE REGULATION

Please note that if it is intended to use the purchased products as personal protective equipment in accordance with Art. 3 No. 1 of Regulation (EU) 2016/425 (PPE Regulation), the user is responsible for checking the products for the presence of a corresponding certification (see technical data of the product). If the product lacks a certification required for use as personal protective equipment as defined by the PPE Regulation, the product may not be used as personal protective equipment or only for non-professional purposes.
