

## **GORGON GTX**

### **COMFORTABLE FROM START TO FINISH.**

Optimal support and a high degree of comfort are the defining qualities of the GORGON GTX. With its high LOWA MONOWRAP® frame, the multifunctional footwear provides perfect foot guidance. As a result, it is the ideal partner for casual hikes and speed-hiking tours. With the help of an integrated GORE-TEX membrane, the high-quality synthetic and fabric upper provides the foot with a virtually impenetrable line of defence against wind and water.

**1** Footwear equipped with a GORE-TEX membrane is reliably waterproof, windproof and breathable.

**2** An outsole designed by LOWA with an optimised rubber compound to provide good grip.

**3** The double-layer midsole is directly injected onto the footwear. The layers include carefully coordinated degrees of rigidity to create the best-possible comfort.

## COLOURS

Steel blue/mustard

## WEIGHT

830 g/Pair (UK 8)

## SUITABLE FOR

### Nordic walking

Nordic walking is an endurance sport where participants' fast walking is supported by the use of two poles that follow the natural rhythm of the walkers' steps. The GORGON GTX is just right for Nordic walking.

### Walks with the dog

Walking the dog is a joint activity in which dog owners and their pets head out into nature. The GORGON GTX is just right for walks with the dog.

### Speed hiking

The GORGON GTX is perfect for speed hikes. The activity involves a rapid trek across challenging terrain using poles and light equipment.

### Family excursions

The GORGON GTX is ideal for a family excursion. This is a joint undertaking that a family does either indoors or outdoors in nature.

### Strolls

The GORGON GTX is the perfect companion for outdoor strolls.

### Day hikes

The GORGON GTX is perfect for day hikes. These outings last for less than 24 hours and lead back to the starting point.

## SOLE

### LOWA® SPEEDHIKING

The sole LOWA® SPEEDHIKING offers solid grip thanks to its large profile contact area. It also provides homogeneous, fatigue-retarding rolling properties on paved paths. Ideal for fast hikers and mountain runners.

## MIDSOLE

### ca. 100 %

#### Polyurethane (PU)

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result. Through the use of PU, the soles become lightweight and functionally flexible.

## INSOLE

### ca. 85 % Polyethylene

Polyethylene is a semi-crystalline and non-polar thermoplastic resin that is, by far, the most widely used plastic in the world. Polyethylene is used in part as a component of man-made fibre/blended fabrics. It is used primarily to create comfort and insulate the foot from below.

### ca. 10 % Felt

Felt is a textile fabric that is made of disordered fibrous material that is difficult to separate. The textile fabric is characterised by its high elasticity and its insulating qualities. As a result, it is used in particular as a component in insoles and as an insulating divider.

### ca. 5 % Fabric

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

## FUNCTIONS

A special frame design known as LOWA MONOWRAP® provides an extra degree of stability.

The footwear is flexible and supports natural rolling properties as a result.

DYNA**PU**®

LOWA DynaPU® provides noticeable cushioning with every step.

## UPPER MATERIAL

### ca. 50 % Synthetic

Our synthetic fabrics made of such plastics as nylon, polyester, polypropylene and elastane (Lycra) are primarily used as design elements and protection for the upper due to their abrasion resistance and tear strength.

### ca. 50 % Fabric

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

## PPE REGULATION

Please note that if it is intended to use the purchased products as personal protective equipment in accordance with Art. 3 No. 1 of Regulation (EU) 2016/425 (PPE Regulation), the user is responsible for checking the products for the presence of a corresponding certification (see technical data of the product). If the product lacks a certification required for use as personal protective equipment as defined by the PPE Regulation, the product may not be used as personal protective equipment or only for non-professional purposes.
