

## SANTIAGO LL

### A COMFORTABLE JACK-OF-ALL-TRADES – PARTICULARLY FOR WIDER FEET.

Lots of leather. Lots of comfort. With its SANTIAGO LL, LOWA has succeeded in creating a great trekking boot that allows people with wider feet to enjoy lengthy tours. No matter what the weather or the surface. The supple leather inner-lining, the VIBRAM TRAC LITE II sole and innovative X-LACING® technology make it all happen. The lacing system is divided into two zones to ensure the robust boot fits optimally.

**1** Proven Vibram rubber sole from a high-quality provider from Italy.

**2** The forefoot and upper area can be laced in varying degrees of tightness.

**3** Holds the tongue in place with the help of the laces and prevents slippage in the process.

**4** Special tongue construction with asymmetric padding for even pressure distribution.

## COLOURS

Slate/beige  
210451 9712

Anthracite/kiwi  
210451 9724

## WEIGHT

1480 g/Pair (UK 8)

## SUITABLE FOR

### Mountain hiking

The SANTIAGO LL is ideal for mountain hiking. This involves a tour in mountainous terrain.

### Multi-day hikes

A multi-day hike involves a tour with a backpack that lasts for more than 24 hours. The SANTIAGO LL is the perfect footwear for such hikes.

### Pilgrim hiking

A pilgrim hike is a long-distance journey by foot that is motivated by spiritual needs. The SANTIAGO LL is a good travel companion on such tours.

### Long-distance hiking

The SANTIAGO LL is perfect for long-distance hiking. It involves covering a great distance on foot over a period of several days.

### Day hikes

The SANTIAGO LL is perfect for day hikes. These outings last for less than 24 hours and lead back to the starting point.

## SOLE

### VIBRAM TRAC® LITE II

The VIBRAM TRAC® LITE II has a multifunctional profile that includes a rubber compound and special sole design in the front and heel area. With the help of these features, it can take on the widest range of activities.

## MIDSOLE

### ca. 100 %

### Polyurethane (PU)

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result.

Through the use of PU, the soles become lightweight and functionally flexible.

## INSOLE

**ca. 40 %**

### **Polyester**

Polyester is synthetic plastic fibre made from crude oil. In chemical terms, it is a polymer that can be processed into many different materials. Thanks to its chemical flexibility, polyester is lightweight, dries quickly, does not shrink and has the highest levels of tear and abrasion resistance.

**ca. 10 %**

### **Mesh**

Mesh is a material that consists of many evenly spaced holes. It is usually made of polyester or nylon and basically a lattice-like material that is created by interwoven threads. Thanks to its special design, the man-made fibre is particularly permeable to air, has special moisture-regulating qualities and is easy to care for, breathable and crease-resistant.

**ca. 50 %**

### **Viscoelastic latex foam**

Viscoelastic latex foam is made of a remarkable polymer that lends a special form memory to the foam. Once body heat or pressure is applied to the viscoelastic foam, the foam adapts exactly to these particular contours. This feature equally distributes pressure and eases stress on the feet.

## LINING MATERIAL

The leather inner-lining creates cosy wearing comfort and a pleasant shoe climate.

## FUNCTIONS

Upper design with freely moving lace hooks and lacing systems.

The shoe is moderately stiff.

## UPPER MATERIAL

**ca. 90 %**

### **Nubuck leather**

Nubuck leather is a full-grain leather that is slightly sanded, a process that lends a velvety look to the leather. Nubuck leather is especially durable, robust and open-pored. Depending on the desired look, nubuck leather can remain untreated or be oiled or waxed.

**ca. 10 %**

### **Fabric**

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

## PPE REGULATION

Please note that if it is intended to use the purchased products as personal protective equipment in accordance with Art. 3 No. 1 of Regulation (EU) 2016/425 (PPE Regulation), the user is responsible for checking the products for the presence of a corresponding certification (see technical data of the product). If the product lacks a certification required for use as personal protective equipment as defined by the PPE Regulation, the product may not be used as personal protective equipment or only for non-professional purposes.
