

## DELAGO GTX LO Ws

### JOIN US, PLEASE!

The DELAGO GTX LO Ws is a lightweight, functional and, above all, resolvable low-cut shoe that makes a clear statement during mountain excursions about exactly who is wearing the footwear. The shoe has gained quite a following among mountaineering enthusiasts. Its features show why: a sporty approach design, a rubber cap in the toe area, movable lacing loops that facilitate the individual, situation-defined adjustment of the shoe's fit and a combination of Vibram outsole and a midsole made of LOWA DynaPU®+.

**1** Footwear equipped with a GORE-TEX membrane is reliably waterproof, windproof and breathable.

**2** Proven Vibram rubber sole from a high-quality provider from Italy.

**3** Lasts specially adapted to the anatomy of women's feet.

## COLOURS

Petrol/aquamarine  
220093 7472

Patina green/light blue  
220093 7570

Camel/peach  
220093 4327

850 g/Pair (UK 8)

## SUITABLE FOR

### Approaches

The approach boot DELAGO GTX LO Ws is perfect for the hike to the starting point of the actual via ferrata or climbing tour.

### Pilgrim hiking

A pilgrim hike is a long-distance journey by foot that is motivated by spiritual needs. The DELAGO GTX LO Ws is a good travel companion on such tours.

### Day hikes

The DELAGO GTX LO Ws is perfect for day hikes. These outings last for less than 24 hours and lead back to the starting point.

### Long-distance hiking

The DELAGO GTX LO Ws is perfect for long-distance hiking. It involves covering a great distance on foot over a period of several days.

### Mountain hiking

The DELAGO GTX LO Ws is ideal for mountain hiking. This involves a tour in mountainous terrain.

### Multi-day hikes

A multi-day hike involves a tour with a backpack that lasts for more than 24 hours. The DELAGO GTX LO Ws is the perfect footwear for such hikes.

## SOLE

### VIBRAM ROCK TRAC® SENSE

The VIBRAM ROCK TRAC® SENSE shows off its strengths on versatile terrain: Good grip, the Vibram XS Trek rubber compound and the special triangular profile design provide optimal comfort.

## MIDSOLE

### ca. 100 %

#### Polyurethane (PU)

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result.

Through the use of PU, the soles become lightweight and functionally flexible.

## INSOLE

**ca. 90 %**

### **Polyurethane (PU)**

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result. Through the use of PU, the soles become lightweight and functionally flexible.

**ca. 10 %**

### **Mesh**

Mesh is a material that consists of many evenly spaced holes. It is usually made of polyester or nylon and basically a lattice-like material that is created by interwoven threads. Thanks to its special design, the man-made fibre is particularly permeable to air, has special moisture-regulating qualities and is easy to care for, breathable and crease-resistant.

## FUNCTIONS

DYNA**PU**®

FLEXIBLE

LOWA DynaPU®+ has a very high level of recovery behaviour. The highly elastic features maintain their properties for a very long period of time.

The footwear is flexible and supports natural rolling properties as a result.

## UPPER MATERIAL

**ca. 90 %**

### **Suede leather**

Suede leather comes from the flesh side of the hide. It has a looser fibre structure, a quality that creates a velvety surface and a light pile. Suede leather is particularly durable and open-pored. Depending on the desired look, suede leather can remain untreated or be oiled or waxed.

**ca. 10 %**

### **Fabric**

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

## PPE REGULATION

Please note that if it is intended to use the purchased products as personal protective equipment in accordance with Art. 3 No. 1 of Regulation (EU) 2016/425 (PPE Regulation), the user is responsible for checking the products for the presence of a corresponding certification (see technical data of the product). If the product lacks a certification required for use as personal protective equipment as defined by the PPE Regulation, the product may not be used as personal protective equipment or only for non-professional purposes.
